`Short info about me`

Started coding in 2023. I explored everything from desktop apps to data analytics. Frontend is where I found the right fit. I'm growing toward mastery while also shaping UI/UX and brand systems to keep products consistent end-to-end. I'm responsible and organized, communicate clearly, and take ownership—curious by default and steady under pressure.

Work experience

2025.03 - Present `MB Code art`

`7 months` **Frontend developer**

- Designing UI/UX in Figma. - Developing websites using React, Next.js, TypeScript, Tailwind CSS, WordPress - Developing iOS & Android application with React Native, Expo, Redux.
